

# Hikvision Playback Instructions

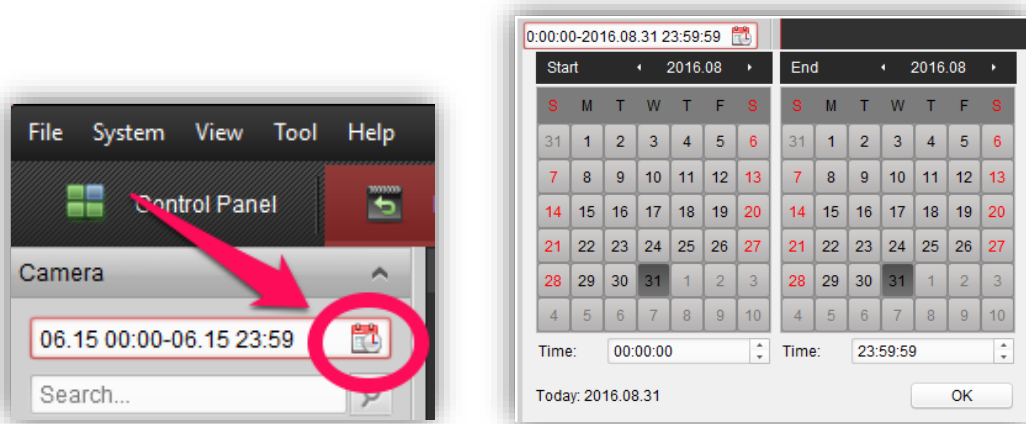

- Open the IVMS-4200 software and click on control panel:

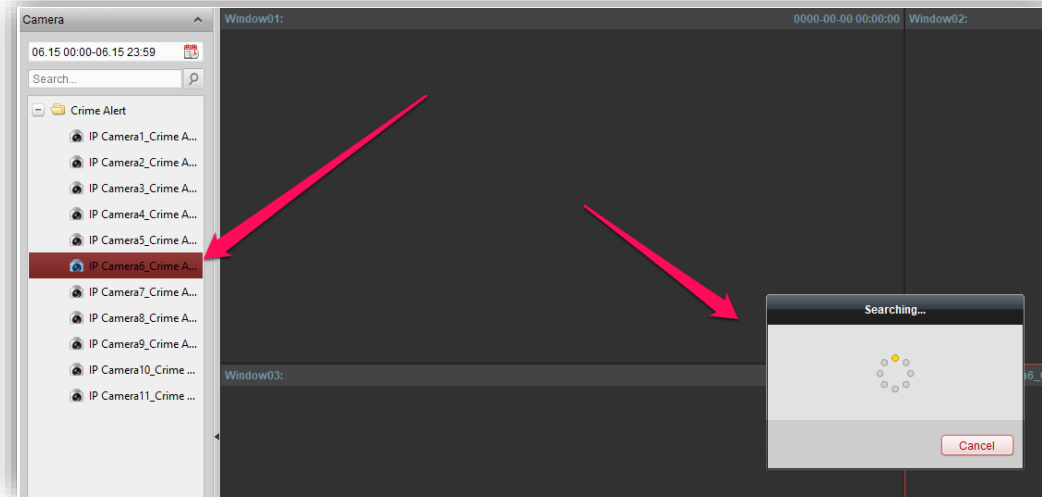

- Click Remote Playback:

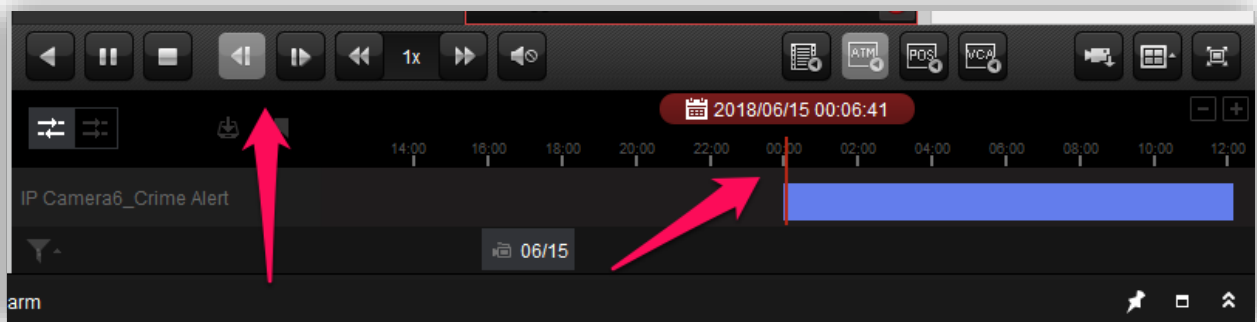

- Select the Date and Time. The time will be in 24-hour format. Try to avoid selecting multiple days as this will lengthen the time it takes for the NVR to retrieve results. Click Ok when ready:

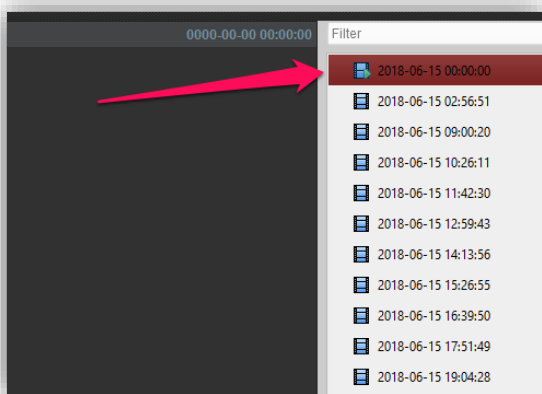

- Double click the camera on the right you would like to see playback. You will get a conformation the NVR is searching for the recording:

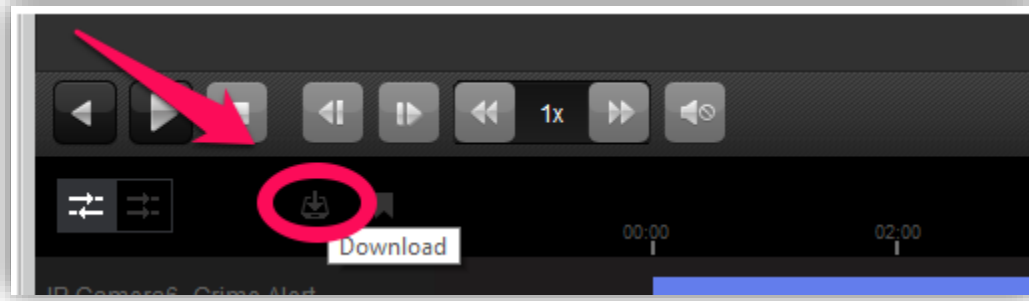

- A colored bar will show up on the screen you can click and drag to set to a certain time point. Also the Playback controls are on the left:

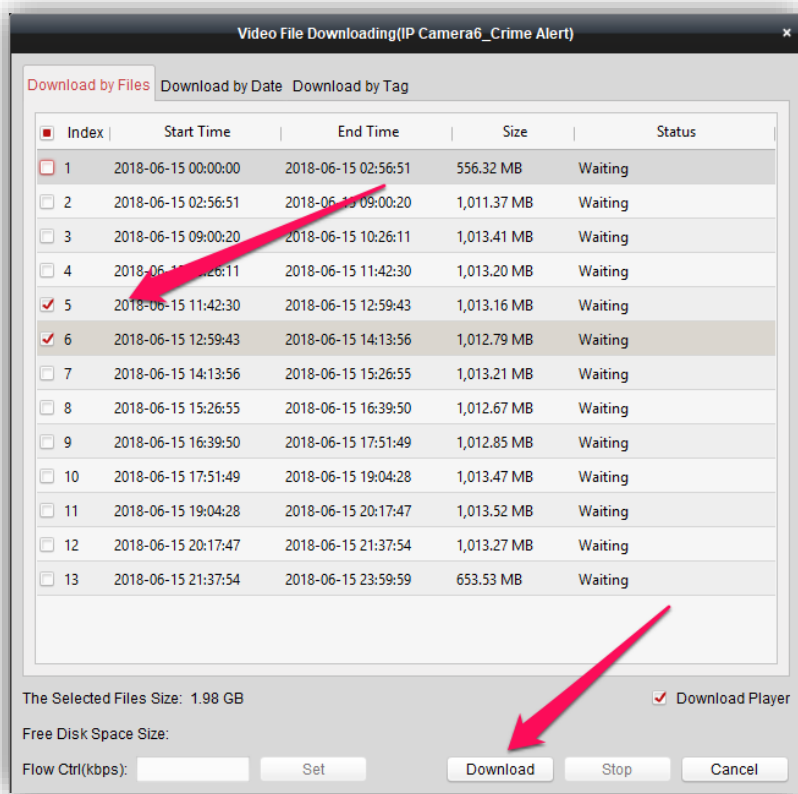

- Additionally, Events will be listed on the right side of the program (Double click to play the event):

- To Save the footage to your computer click the Download button:

- A new window will open with a selection of times and dates, select the time and date you wish to download by putting a check mark in the box next to it:

- Click on the download button and it will begin transferring the files to your computer
- By default, the save location is c:/IVMS4200/video
- The files will be saved in .MP4 format, if you have any issues with playing them download VLC media player or GOM video player (both are free).
- This concludes the instructions for playback for your Hikvision NVR
