

Playback from IMVS-4500 Mobile App

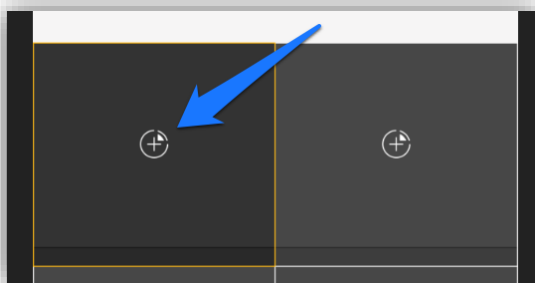

Open the IVMS-4500 App and select the menu:

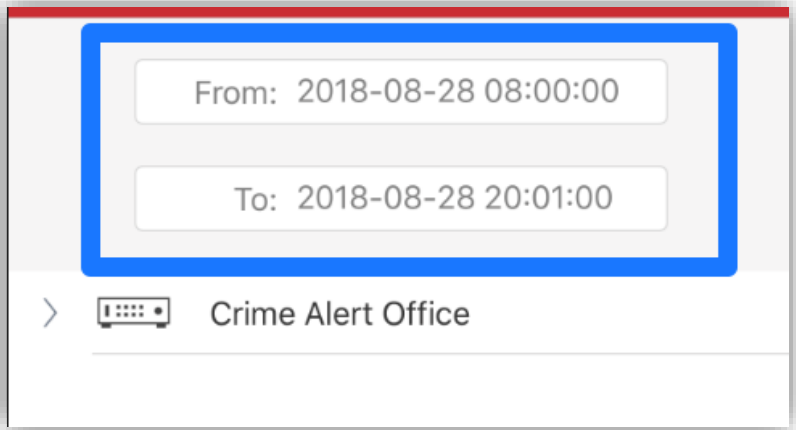

Tap Remote Playback:

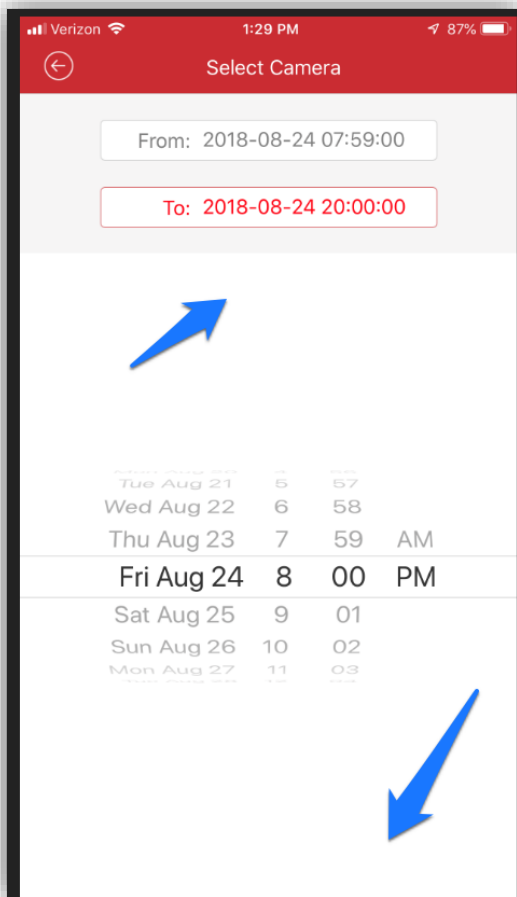

Tap the Plus icon on any camera window:

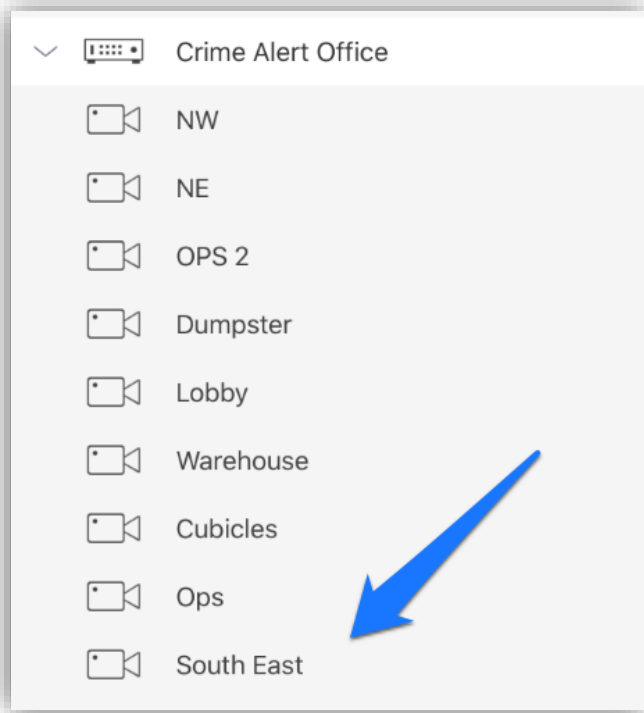

Here you will see the From and To date picker fields. Tap them to select your start and end dates:

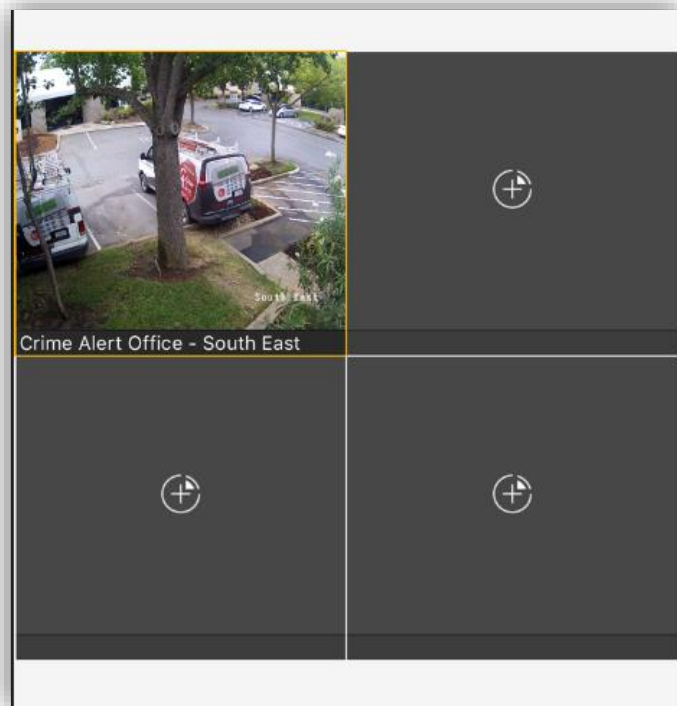

To get out of the date picker tap at either the top or bottom of it:

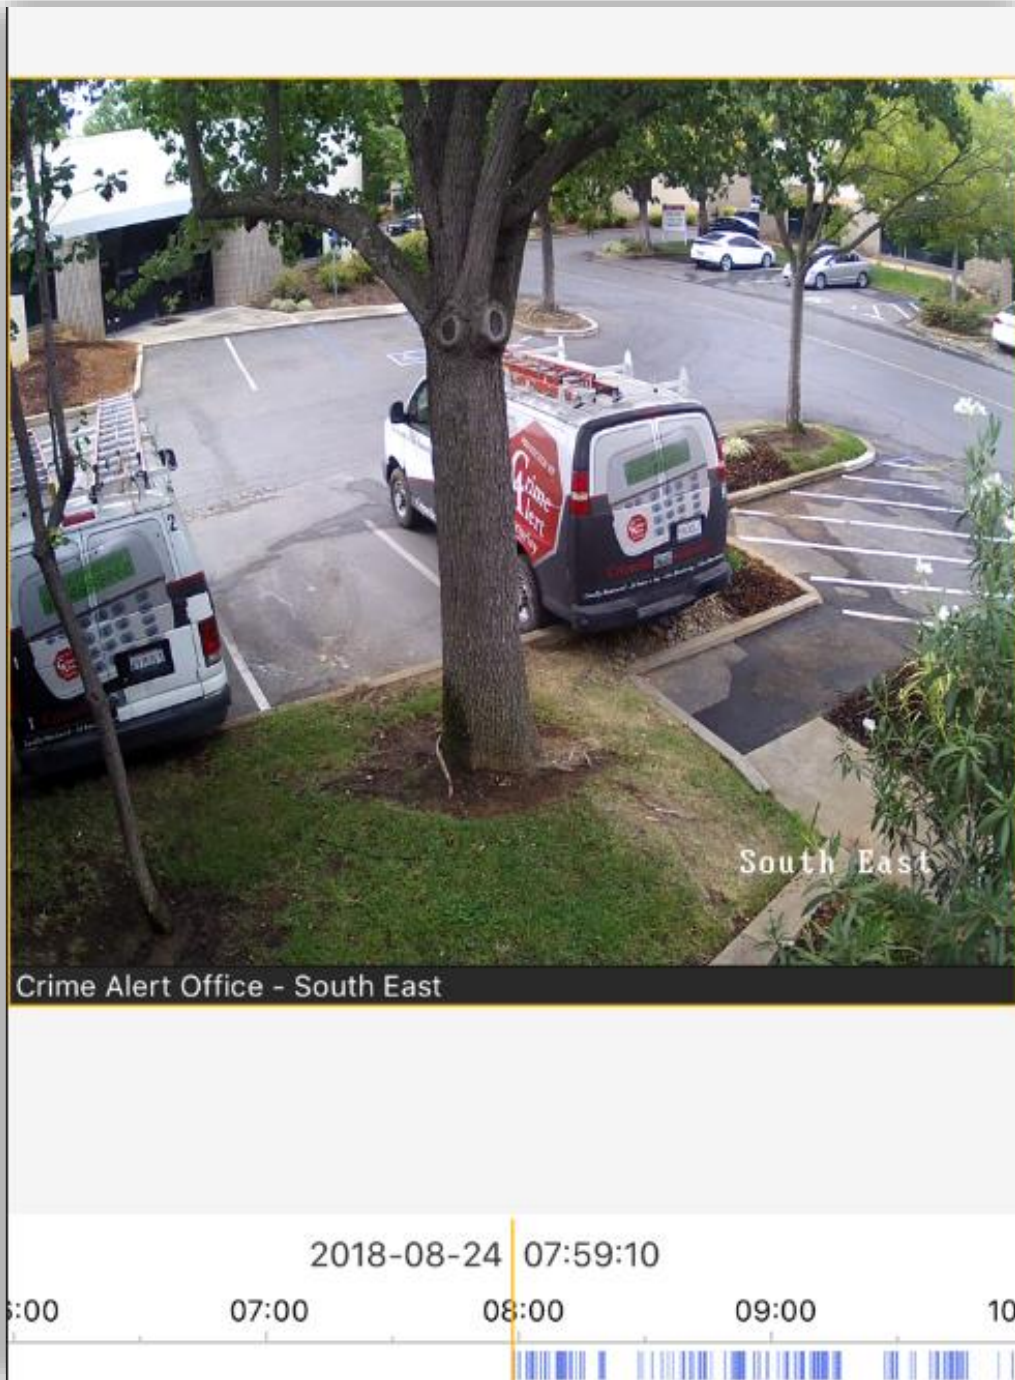

Expand your site, and tap the camera you would like to see playback on:

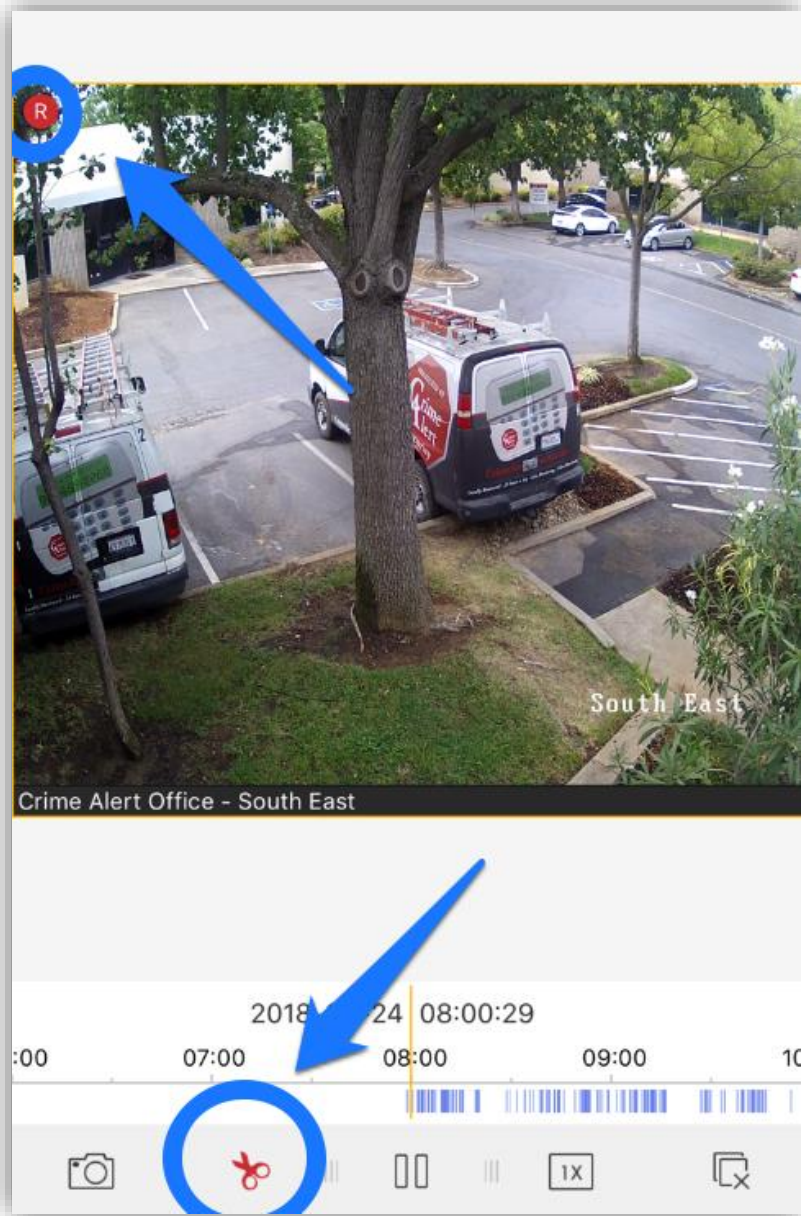

Playback will start in the window you originally tapped the plus sign on:

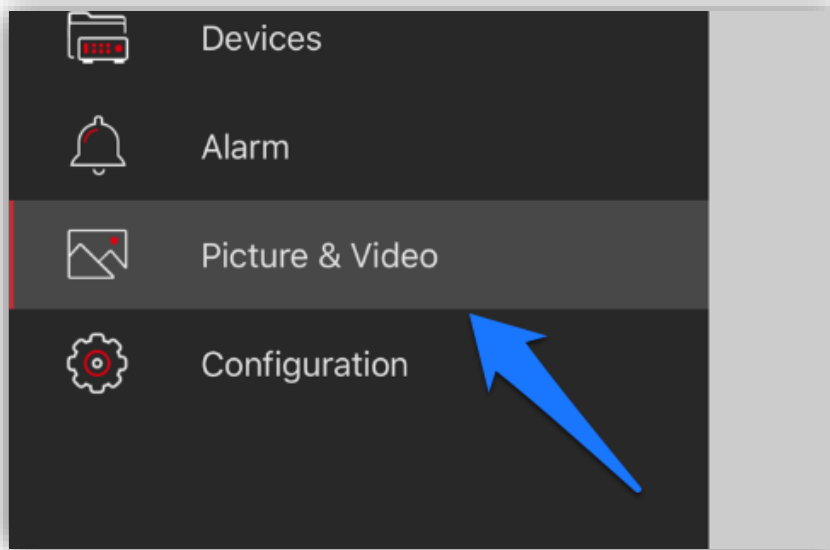

Double tap the window to make it full screen:

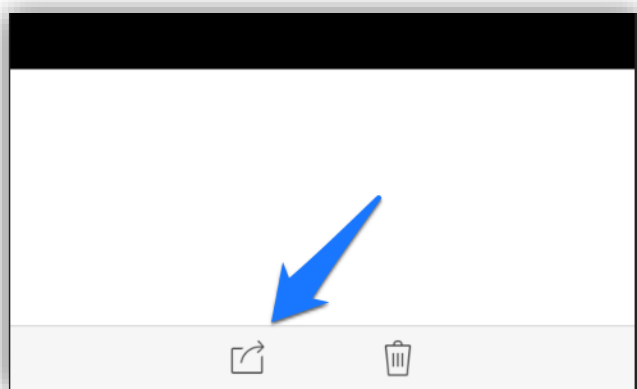

To save footage to your phone, tap the trim icon at the start of the video segment you would like to save. You will have to tap it twice, once to start the recording, second to stop it. While recording is in progress the trim icon will turn red, and there will be a recording icon in the top left of the camera window:

You can find the saved video clip in the Picture and Video section of the menu:

Tap on the video to re-watch the footage. Also, there is a share icon at the bottom of the page if you would like to send the footage to anyone else:

If you need further assistance with this process contact the Crime Alert Security Office: 916-489-8068
